| **Introduction** | Investall, Inc. ("Investall," or the "Adviser"), formerly known as ForeSCITE, Inc. until its name changed effective November 2, 2022, is registered with the Securities and Exchange Commission (SEC) as an investment adviser. Brokerage and investment advisory services and fees differ and it is important for you to understand these differences. Free and simple tools are available to research firms and financial professionals at Investor.gov/CRS, which also provides educational materials about broker-dealers, investment advisers, and investing. |
| **What investment services and advice can you provide me?** | Investall provides investment advisory services to Registered Investment Advisers, as well as retail clients who utilize Investall's mobile app, via an online platform. Clients of Investall provide information regarding their securities positions and cash balances and Investall uses an algorithmic model to analyze this information in order to provide portfolio allocation and buy-sell signals electronically to its clients. Typically, this rebalancing of the portfolios by Investall is done on a monthly basis. All client portfolios get the same allocations. Investall uses Artificial Intelligence ("AI")-based tools to monitor the markets. The Adviser manages client accounts on a non-discretionary basis only, which means that you decide what investments to buy and sell. Investall does not have a stated minimum account size. Investall uses cash and S&P sector ETFs for these allocations.<br><br>***For additional information,*** please see our Form ADV Part 2A, Items 4, 7, 13 and 16.<br><br>***Conversation Starters.*** Ask your financial professional:<br>• **Given my financial situation, should I choose an investment advisory service? Why or why not?**<br>• **How will you choose investments to recommend to me?**<br>• **What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?** |
| **What fees will I pay?** | The Adviser generally charges the Registered Investment Adviser a service fee equal to an annual rate based on the total assets advised for such client. In some cases, Investall instead charges an agreed-upon fixed fee to the Investment Adviser Client. Retail investors access Investall services through a mobile app for which Investall charges a monthly subscription fee.<br><br>Fees based on assets under management are negotiable based upon various objective and subjective factors including, but not limited to, the amount of assets which Investall's AI-based algorithmic tools are monitoring. The Adviser does not receive performance-based fees.<br><br>Clients may pay other expenses to other entities in addition to the fees paid to us. For example, clients may pay costs such as brokerage commissions, transaction fees, custodial fees, transfer taxes, wire transfer fees, and other fees and taxes charged to brokerage accounts and securities transactions, which are unrelated to the fees collected by us. Mutual funds and ETFs also charge internal management fees, which are disclosed in a fund's offering documents.<br><br>***You will pay fees and costs whether you make or lose money on your investments.
